

ELECTRIC SURVEILLANCE CUBE

Use a forklift to move this temporary surveillance system around your job site. This all-in-one unit comes with (4) 3-megapixel cameras providing excellent coverage. Its semi-large footprint is a deterrent to potential intruders and prevents employees from taking tools, equipment, or materials from the site. Each unit requires a 120v power supply and has a backup battery bank.

REMOTE SITE MANAGEMENT

View your site live from any location, on any device.

PERIMETER WATCH

Monitor specific areas of concern while maintaining a full-field of view.

SITE SECURITY

Live, 24/7, US based, monitoring services available. Alerts sent to you and/or your local law enforcement of suspicious activities.

TIME LAPSE

Document your project from start to finish with photos captured daily through any of our mobile camera systems.

PTZ CAMERAS

Pant, tilt, and zoom cameras allow remote camera repositioning when cameras need to be relocated.

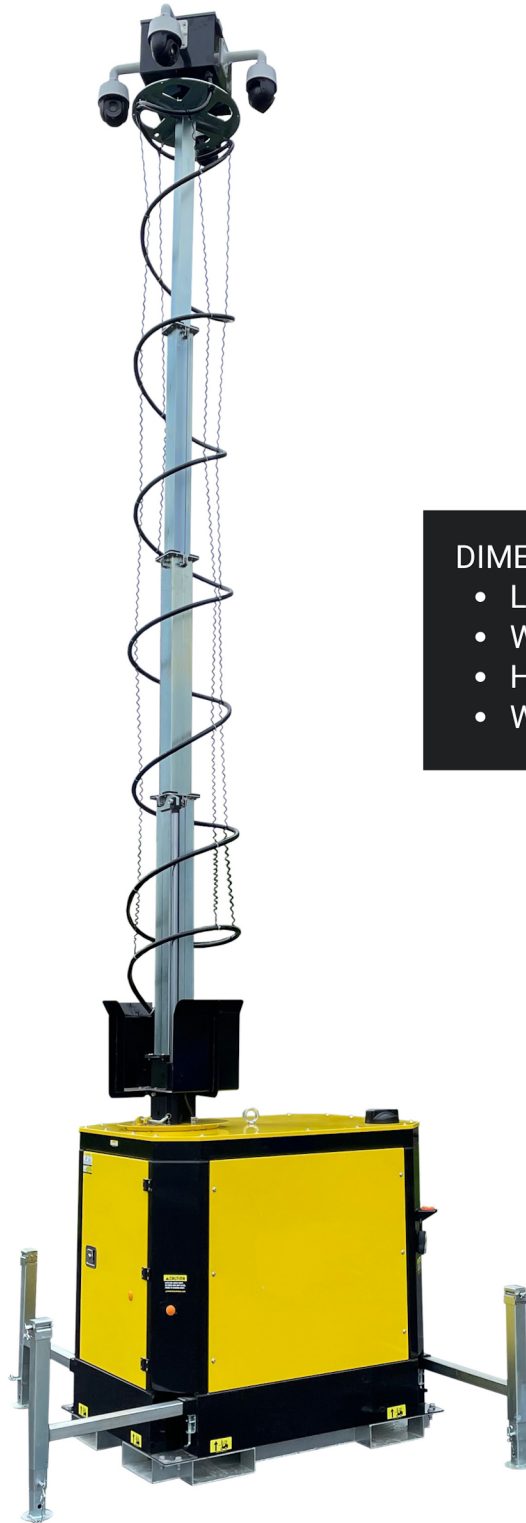

TRAILER SPECIFICATIONS

- 4 x 3MP PTZ cameras w/ 20x zoom
- 750 Ah of AGM batteries
- Forklift accessible
- 25' mast height
